

CRESCENT

Hacksaws

Designed for superior performance and more precise cuts with improved tensioning mechanisms and ergonomic grips.

You're not average. And neither are these hacksaws.

Crescent Tools takes a fresh take on traditional hacksaws with innovative tensioning systems, ergonomic grips, and blade storage options for more versatility and efficiency on the jobsite. Our compact hacksaw's patent-pending twist tensioning system is easy to use and provides superior cutting, allowing you to work smarter and harder.

Compact Hacksaw

Accepts blade sizes 10" or 12".

Compact Hacksaw

Accepts 10" or 12" blade sizes.

High-Tension Twist Mechanism

Patent-pending in-handle twist tension system provides quick and easy blade tension for superior cuts comparable to a full-size hacksaw.

Multi-Size Blade Compatibility

Tool accepts both a 10" and 12" blade. Adjust position of the blade for flush cuts.

Extended Cut Capacity

Longer throat allows for longer and more efficient cuts.

Comfort Grip

Designed for max grip and cut control.
