

CRESCENT[®]

BOLT BITER[™]

Nothing Escapes A Bolt Biter's Grip

The new Crescent Bolt Biter™ impact nut extractor & driver is the ultimate tool for driving and extracting hex head fasteners of any condition, whether new, worn, rounded, rusted, or damaged. The revolutionary tapered socket design engages with the fastener on the first try and eliminates the frustration of working with old or damaged fasteners.

Integrated Magnet
Allows fasteners to stay in place securely when extracting or driving

1/4" Hex Shank
Compatible with impact drivers and drills

5X Gripping Force
Tapered entry allows socket to easily seat on fasteners of any conditions

Impact Torsion Zone
Torsion design delivers maximum performance for impact applications

Drives & Removes New & Damaged Fasteners
Bi-directional design enables easy drive, removal and reuse of new and damaged fasteners

1 - 7/8" Length
